Too much emphasis on “murri prisoners (1)

As stimulus material it is the wrong way to do it

Suggestions for 2010 In-Service Training

Venue like Alexandra headlands which could accommodate all chaplains

Keep the same venue – provide at least 2 microphones

More discussion time Mature Chaplains mixed with newer chaplains

Keep Same style

Teaching on self care

Some Spiritual input - Sound interpretation of what the bible is and is not

Other faiths input

One Hours break after lunch for a rest would have been helpful

Follow up on requirements for chaplains essential

Group photos and individual head and shoulders

Security issues – preferable from someone in Intel

Advertise closing time on the brochure for Air Travel

Ministering to the minister (us)

Some quiet time and catch up time

Dr. Judith Murray's presentation was excellent bring her back

`More focus on Inservice training

Hand out with every presentation

Do away with denominational/organisation night – too much

Denominational table last night not a good idea/causes division

Provide a small writing pad

Bit too much on mental health

Information on Wacol precinct

More input from QCS

Do we need an hour long concluding session?

Small gift for each presenter – suggestion leather bookmark with scripture verse
